SUMMARY

I am a proficient full stack developer with four years of hands-on experience in designing, implementing, and maintaining robust web applications. Skilled in front-end, back-end and database management technologies, adept at problem-solving and collaborating with cross-functional teams to deliver high-quality solutions.

EDUCATION

University Of Gujrat

Bachelors in Software Engineering

Oct 2016 – Oct 2020

EXPERIENCE

— Senior Full Stack MERN Developer

Nov 2020 – Present

Iyrix Technologies

- Orchestrated the development of an innovative ERP system with a key client, leading the creation of RESTful APIs and crafting an interactive dashboard that boosted user engagement by 40%.
- Spearheaded UI enhancements using React.js in a dynamic startup environment, resulting in a 30% boost in user retention and a 20% increase in user satisfaction ratings.
- Achieved system scalability and performance improvements by collaborating with a 50+ person, development QA and Scrum Master team.
- Empowered development teams with CI/CD pipelines, enabling over 20 daily deployments.

Full Stack MERN Developer Internship

Jul 2020 – Oct 2020

Iyrix Technologies

- Adept in building full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) and honed problem-solving skills through real-world troubleshooting.
- Deployed applications to cloud platforms such as AWS and Firebase for scalability and reliability, gaining valuable practical experience.

PROJECTS

VYRILL | *ReactJs, TypeScript, Redux, Bootstrap*

Jan 2023 – Nov 2023

- Spearheaded UI enhancements at VYRILL(SaaS AI startup), driving a 30% surge in user retention and a 20% jump in satisfaction ratings, empowering brands and retailers with UGC insights.
- Collaborated closely with cross-functional teams of 20+ people to implement new features and integrate front-end with back-end, ensuring seamless data exchange and synchronization.
- Promoted code quality and best practices, reducing testing time by 30%, while actively staying updated with the latest front-end technologies to enhance product capabilities.

STANDARD WORKS | *ReactJs, NodeJs, Express.js, MongoDB, TypeScript*

Nov 2020 – Dec 2022,

Nov 2023 – Present

- Played a key role in the development of a groundbreaking ERP system, empowering businesses to manage operations, time, resources, finances, IoT devices, maintenance, labor and much more.
- As part of a 50+ person team, I designed and implemented key features for scalable, performant, and secure applications, including an interactive dashboard that boosted user engagement by 40%.
- Provided technical leadership and mentorship to junior developers, collaborated closely with clients to gather requirements, and continuously improved the ERP system based on user feedback.
